

MODEL AV-1011-C-GIA SPECIAL FEATURES

- 1) The AV-1011-C-GIA includes an "ON-OFF" switch which activates or deactivates the short circuit protection feature. For driving load resistances of less than 50 Ohms, the switch must be in the "OFF" position. The unit was shipped with the switch in the "OFF" position. The switch may be accessed by removing the top cover (by removing the four Phillips screws on the top cover and then sliding the top cover back and off).
- 2) See the AVX-TD-GIB instructions for guidance in operating the AV-1011-C-GIA with the AVX-TD-GIB.
