INSTRUCTIONS

MODEL AVX-1-BNC, SN 6559  
AND AVR-G1-C-P-IBM1, SN 6499

To convert the positive output pulse of Model AVR-G1-C-P-IBM1 to negative, connect the male port of the AVX-1-BNC to the OUT port of Model AVR-G1-C-P-IBM1.

CAUTION: Do not operate with an output pulse width greater than 150 ns (or damage to both units may result)
